# ITM-X2101 Walk-Through Metal Detector

IP65 Level
Waterproof

ITM-X2101 Portable Walk-Through Metal Detector

Function Description

1. IP65 waterproof Level
2. Portable metal detector, packing with wheels can move easily
3. Program Self-diagnostic when power on, automatically checking left and right door panel, LED light and choose the best working frequency.
4. Adopt advanced digital signal processing control replaced traditional analog signal control, better stability.
5. Six mutual over-lapping detecting zones, Simultaneous alarm from multi- zones;
6. Sensitivity adjustable: Each zone has 355 degree sensitivity level, three patterns: High, middle, Low for different requirements.
7. Sound Alarm: 1-25s alarm time, 355 different sound volume for choose
8. LED light alarm: LED bar graph on left and right door frame, visible alarm simultaneously to ascertain the layout of metal articles
9. Automatically count passengers and alarm times
10. Password protection, only the authorized person can operate.
11. Anti-interference function, using advanced interactive transmitting and receiving to avoid interference, frequency range from 4K-8K to avoid frequency interference
12. Intelligent Saving the people amount of alarm and passing when shut off the device
13. Battery low power indicator
14. Passing speed:100people/minute at most
15. network function：PC network and Mobile App（option）
16. snap pictures （option）
17. Battery backup: 8 hours for option (option)
18. Harmless to human body: is harmless with heart peacemaker, pregnant women, magnetic floppy, recording tapes, etc.

Application

Mine Field, Government office, Police office, procuratorates, courts, prisons, detention, customs, airport, station, gymnasium,

exhibition venues, places of entertainment, large gatherings , factories such as hardware, electronics, jewelry, war industry,

coinage and other factories or companies

Certifications

CE,ISO,ROHS,FCC,IEC,TUV,SGS

# ITM-X2101 Portable Walk-Through Metal Detector

Technical Parameters

Model Number	ITM-T2101
Door External Size	2230*835*580mm
Door Internal Size	1900*700*500mm
Packing type	980 X 630 x 860 mm
Net weight	37KG
Gross weight	44KG
Detection zones	6 /12/ 18 zones
Working voltage	AC90V~264V 50/60Hz
Power consumption	20 W
Power	18V/3500mA
Each zone sensitivity	355 Level
Security level	4085 Level
Working frequency range	4 K- 8K
Relative Humidity	0 – 95 %
Working environment temperature	-20ºC~65ºC
